Sales & Demand Analytics

Executive Business Review

€21.84M revenue · 22.0% margin · +6.8% YoY · OTIF 85%

Prepared by Dimitres Kisimov

Synthetic distributor dataset · 24 months

KPI scorecard

Headline commercial and service metrics

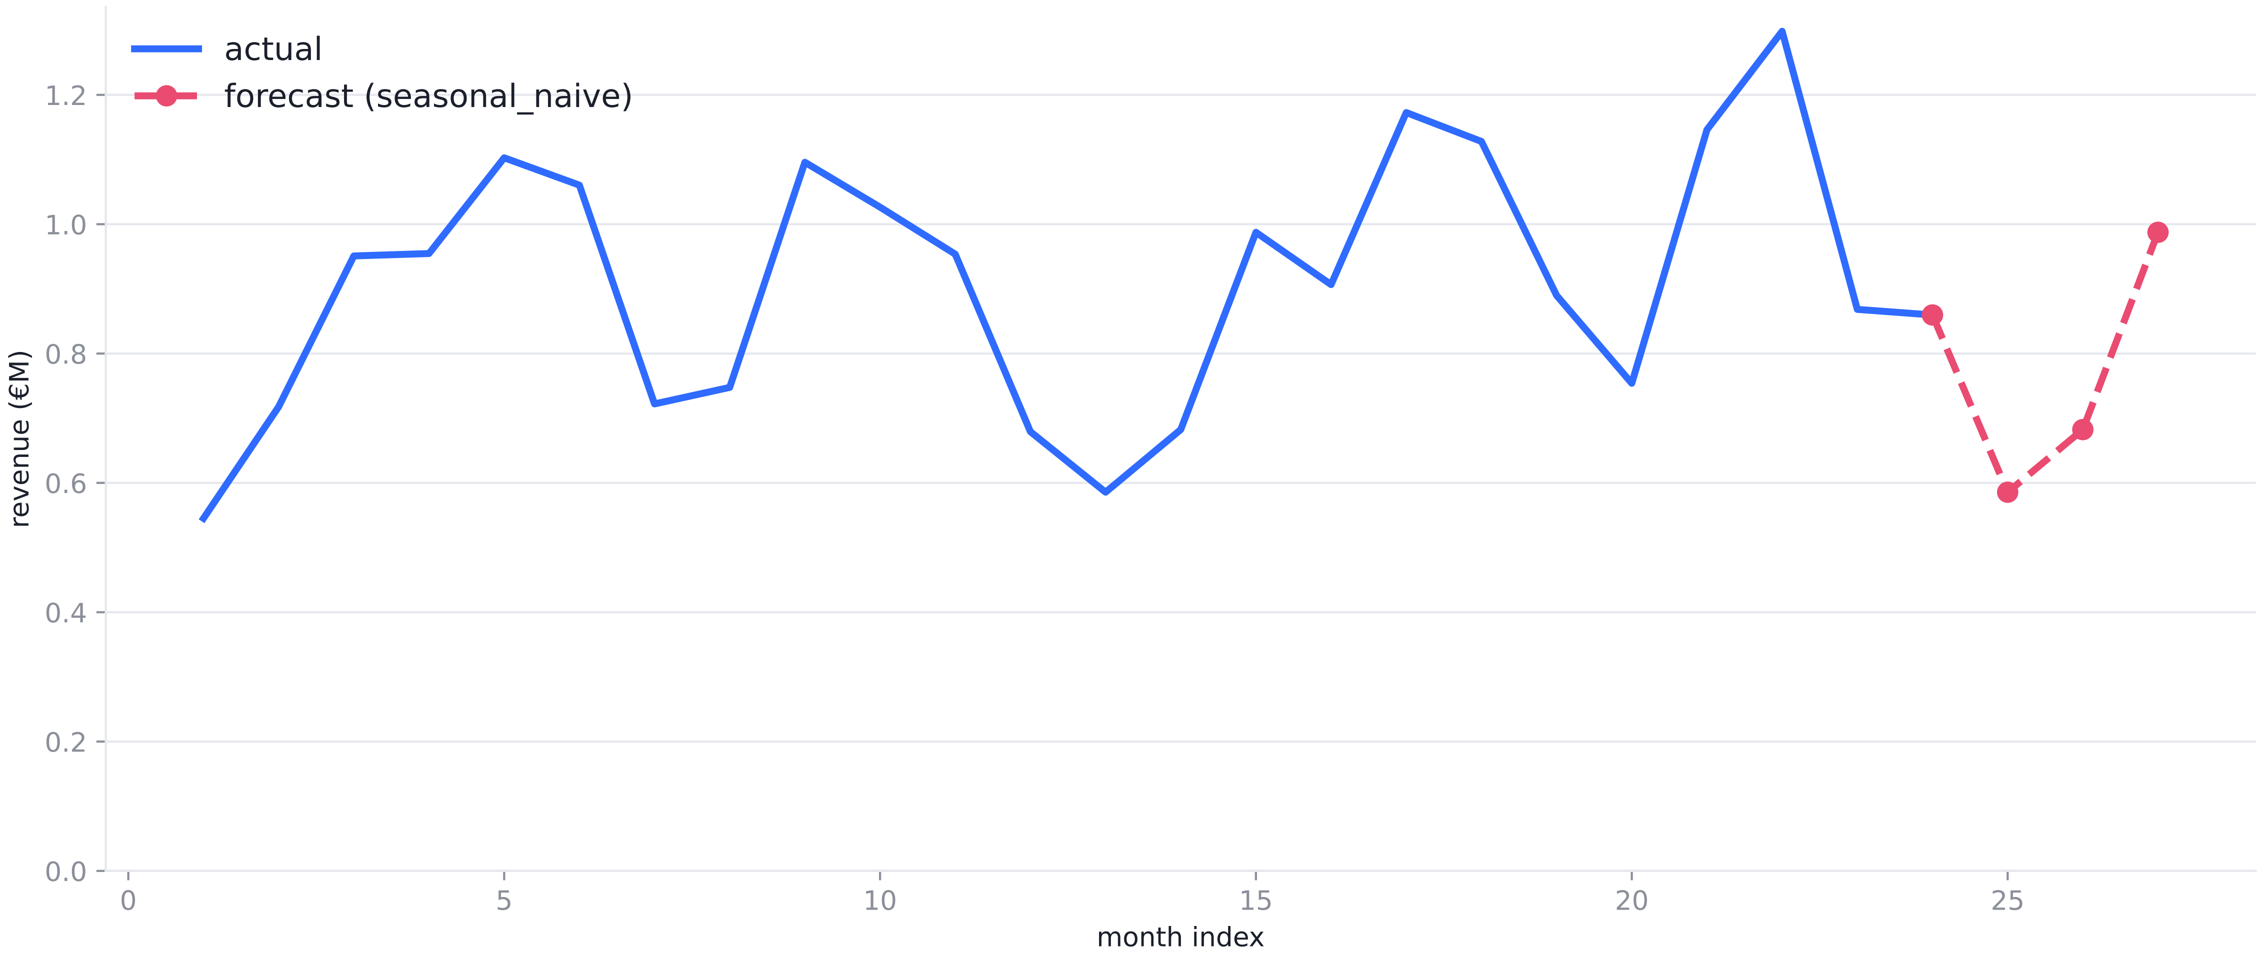
Revenue	Gross margin	Revenue YoY
€21.84M	**22.0%**	**+6.8%**
15,217 orders	€4,800,417	12m vs prior 12m

Avg order value	OTIF	Discount leakage
€1,435	**85%**	**10.7%**
395 customers	on-time & in-full	of list value

Revenue trend & forecast

Monthly revenue with a 3-month forecast (model chosen by rolling-origin CV)

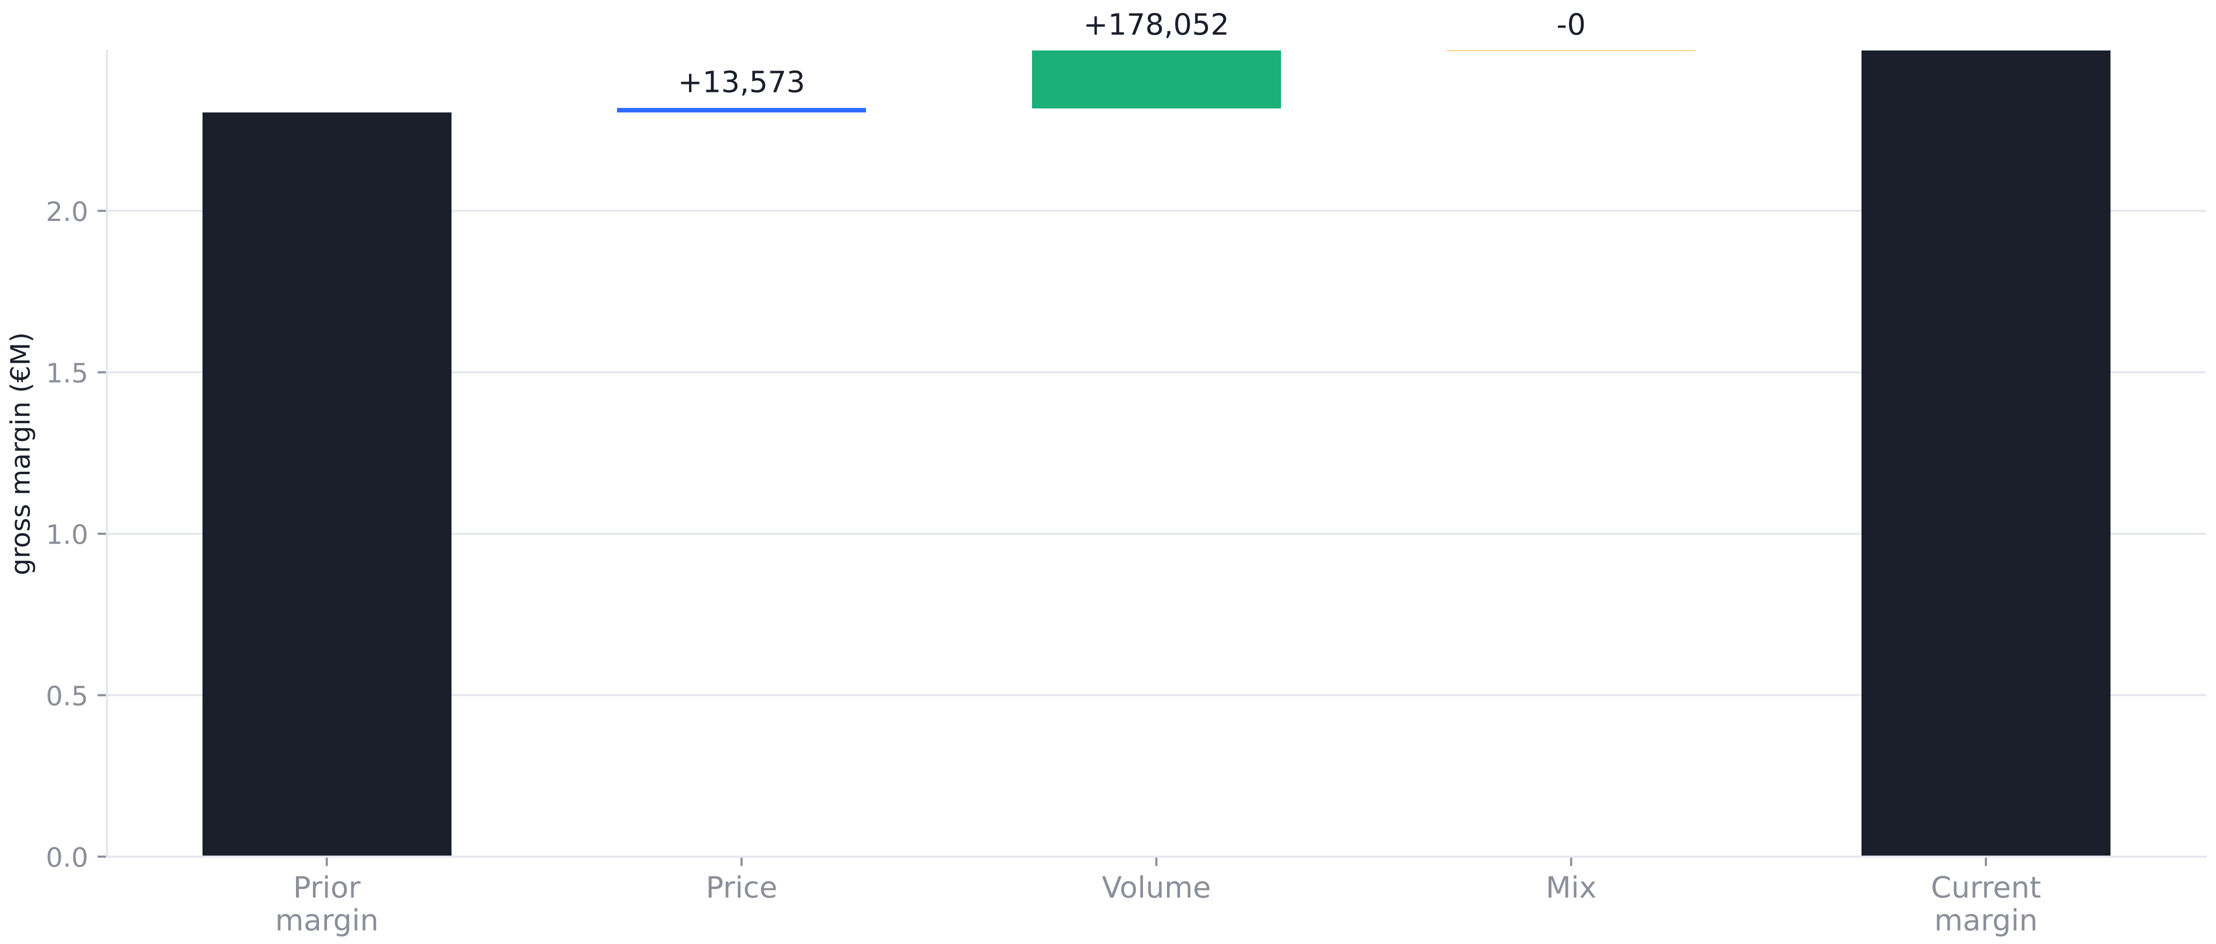
Selected model: seasonal_naive · CV-MASE 1.58 (a value <1 beats the seasonal-naive baseline)



Margin bridge

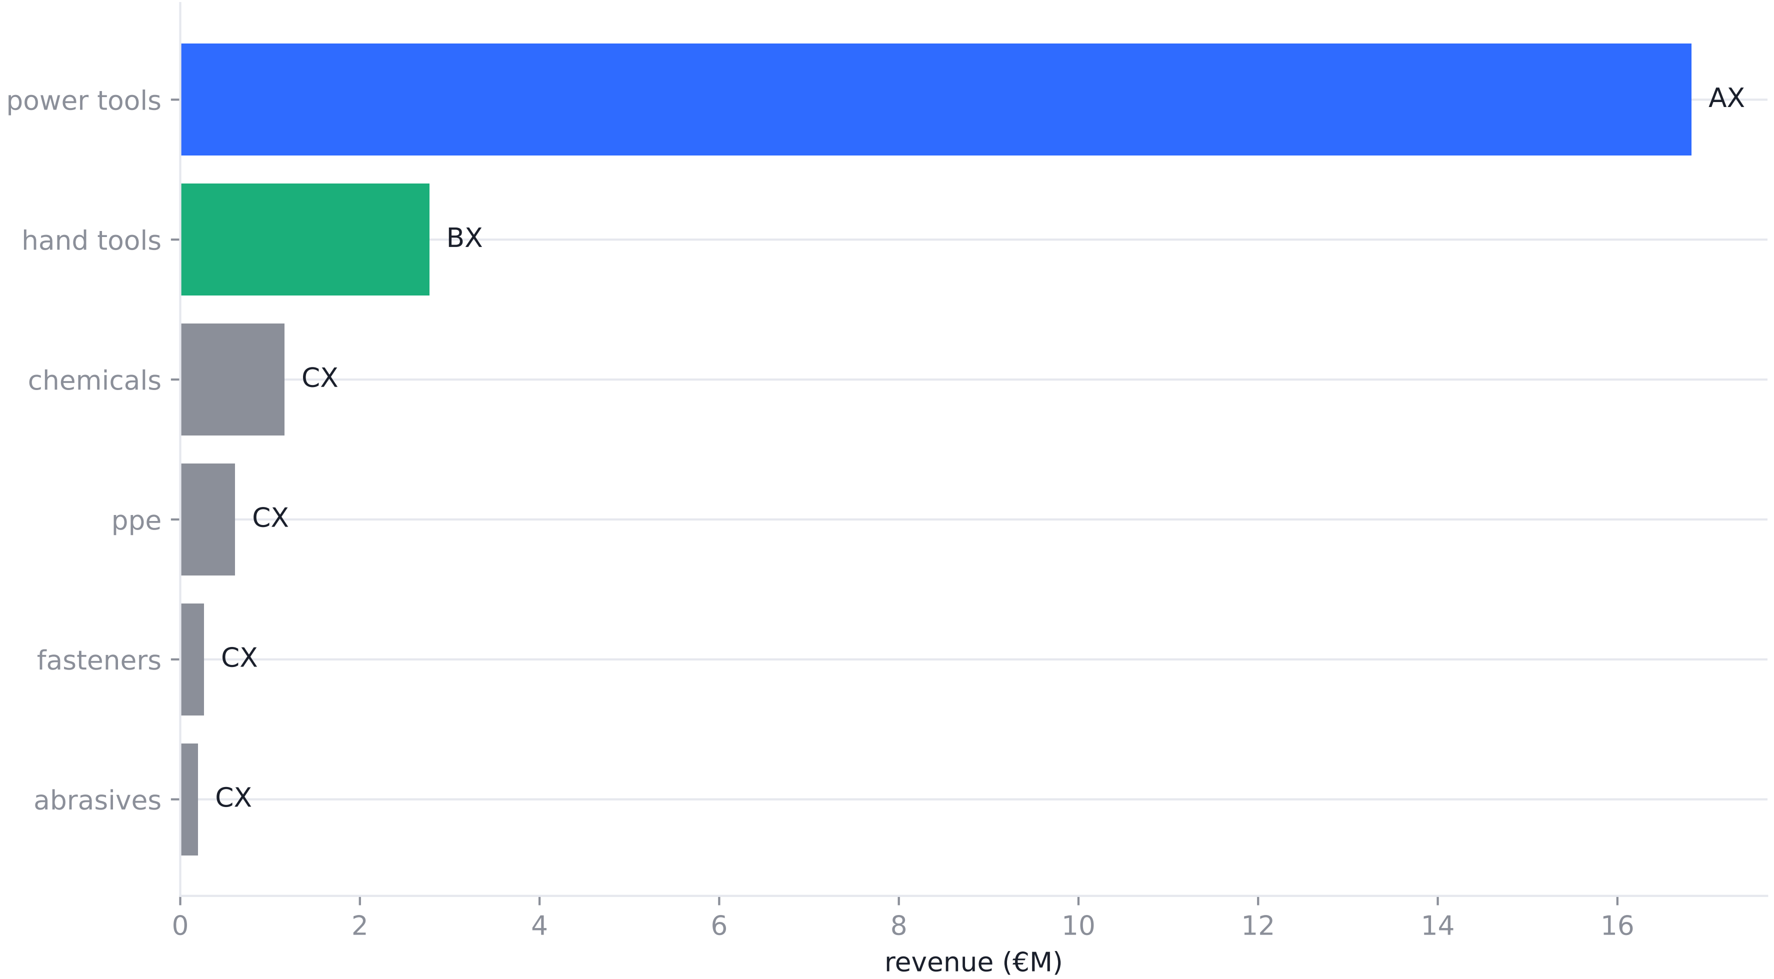
What moved gross margin year-on-year: price / volume / mix

Total change +191,624 EUR (€2.30M → €2.50M)



Portfolio — ABC × XYZ

Revenue concentration vs demand variability by category

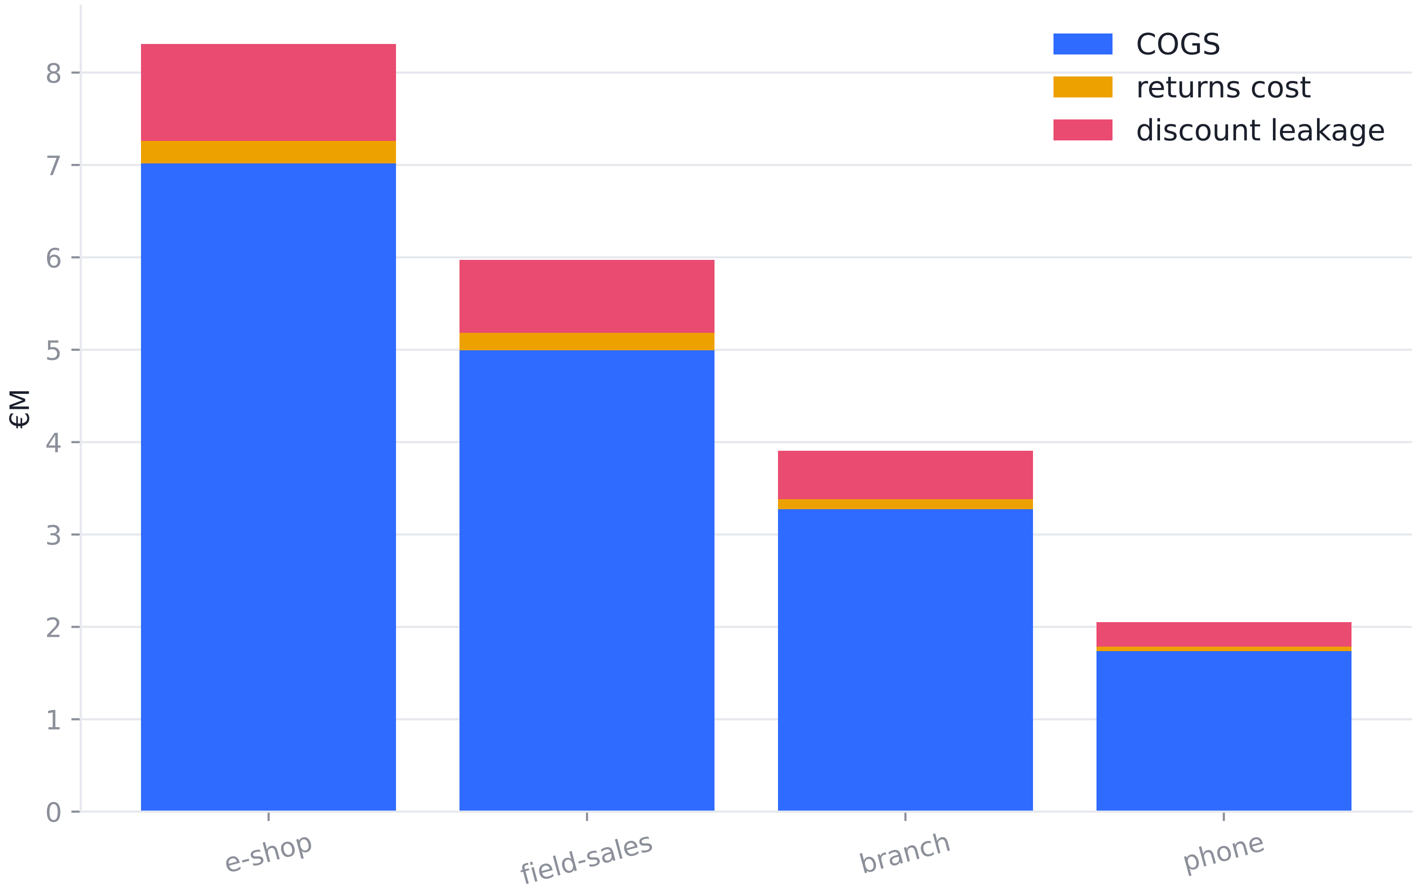


Class key

- A — top ~80% of revenue
- B — next ~15%
- C — long tail
- X — steady demand
- Y — variable
- Z — erratic

Expenditure & spend

COGS plus the two leaks a P&L usually hides



Where the money goes

Total COGS €17.03M

Discount leakage €2,614,903

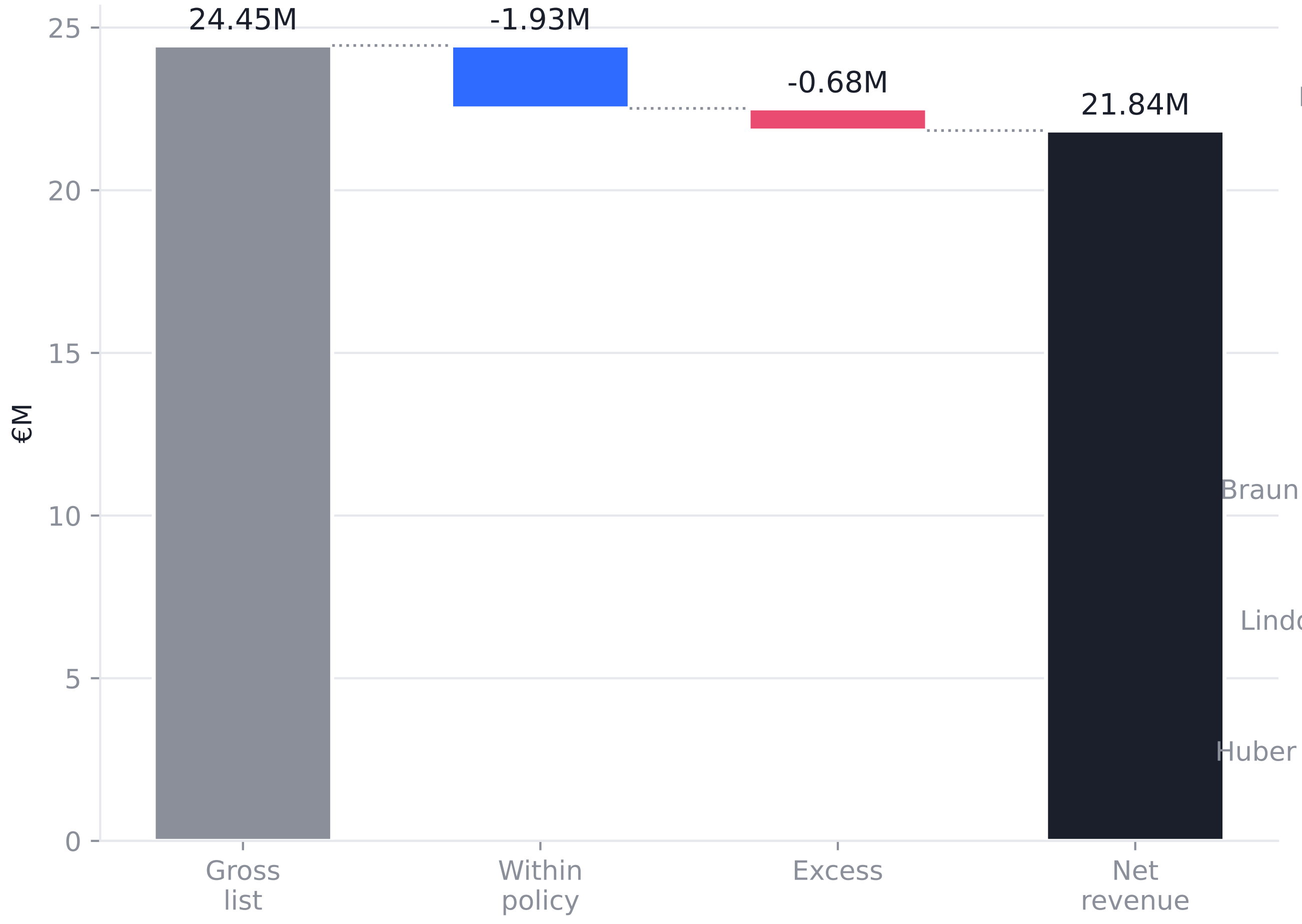
= 10.7% of list value

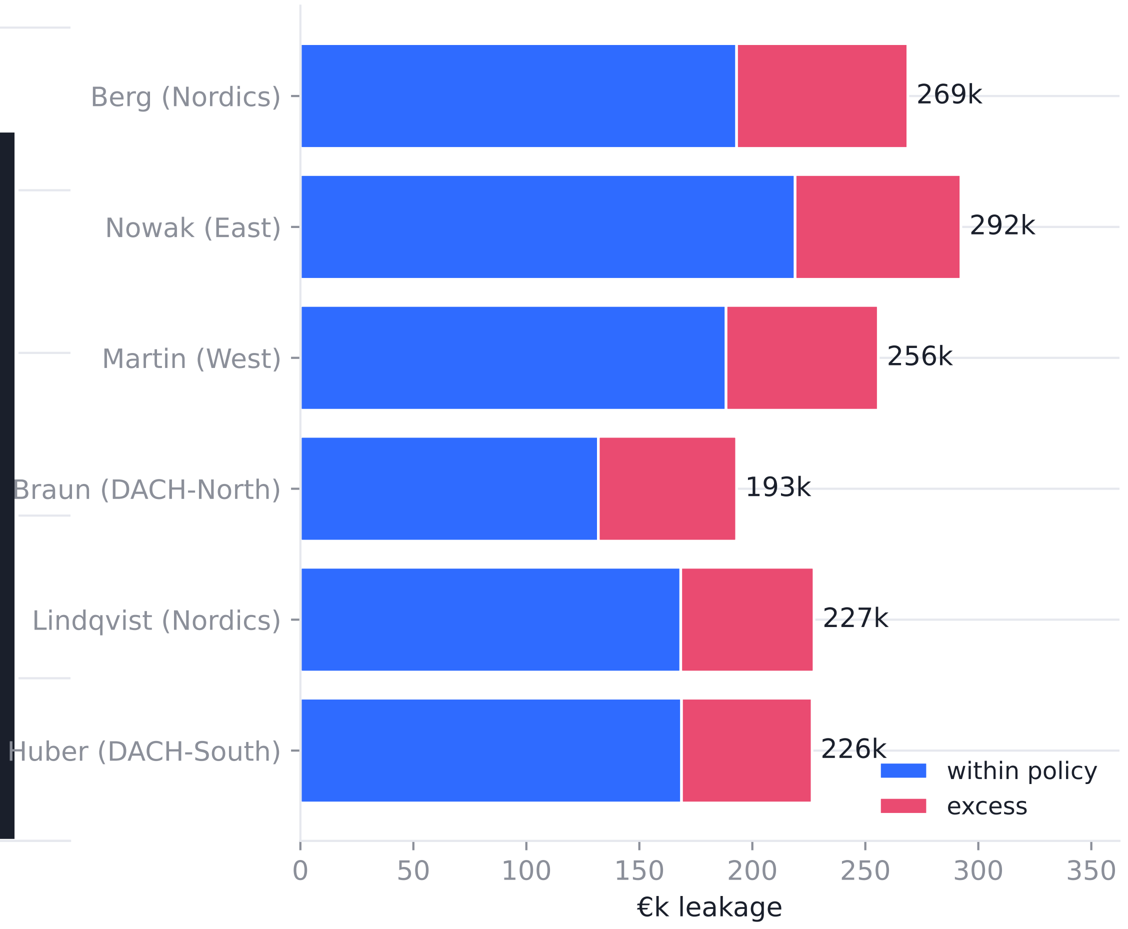
Returns cost €585,473

Discount leakage — who, where

Gross list value to net revenue; leakage split vs an assumed 10% sanctioned-discount ceiling

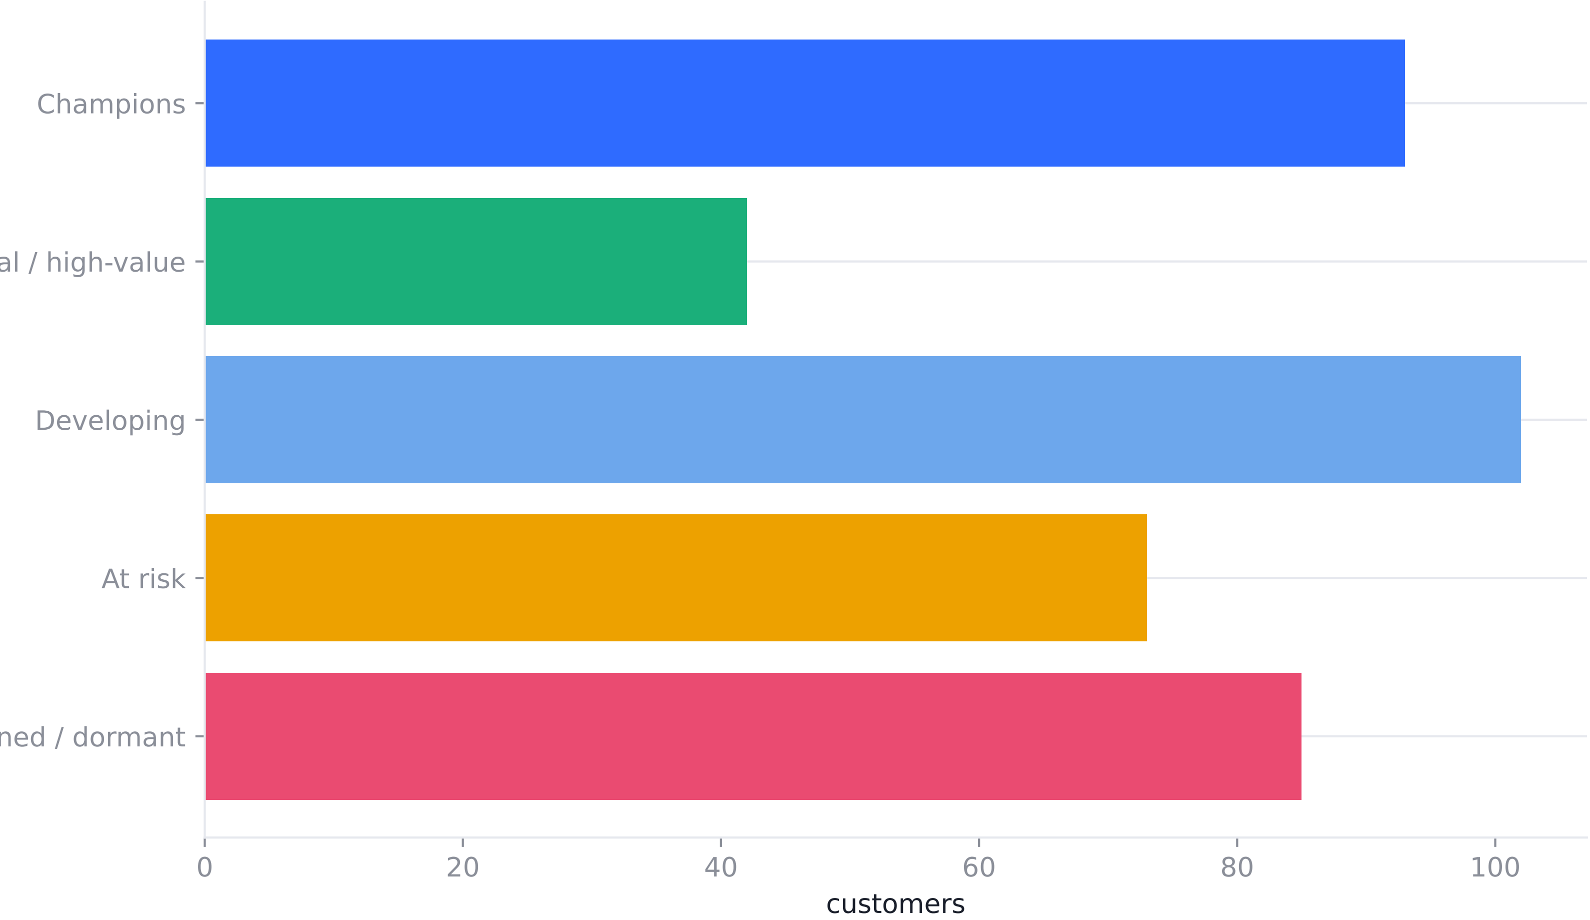
Total leakage €2,614,903 vs list · €680,725 above the assumed 10% ceiling · top offender Berg (Nordics): €268,810, 36% of orders over policy





Customer segments (RFM)

Recency / frequency / monetary segmentation



At-risk / churned

158

of 395 customers — hand to sales for a win-back campaign

Recommended actions

The decisions the numbers point to

- Pacing to plan (FY2025, as of 2025-09, 9/12 mo): projected 10,911,670 EUR = 96% of the 11,400,851 EUR plan (8% assumed) - behind plan — at risk; 80% interval 94-97% of plan (gap -489,181 EUR). Modelled projection, not a guarantee.
- KPI exception monitor: 6 out-of-control month(s) (6 unfavourable) on OTIF % vs robust 3.5-sigma control limits - worst OTIF % 79.04% at 2025-09 (modified z -6.1); 4 monitored KPIs in control.
- Revenue bridge (YoY): Revenue rose €722,407 year-on-year: price +€16,048, volume +€1,381,732, mix −€675,373. Volume was the biggest tailwind (+1,381,732 EUR); mix the biggest drag (-675,373 EUR).
- Discount drill-down: Berg (Nordics) leads the leakage table - 268,810 EUR vs list, 75,779 EUR of it above the 10% policy assumption - review discount authority there first.
- Revenue is up 6.8% YoY; gross margin sits at 22.0%.
- Margin bridge: volume added 178,052 EUR while mix cost 0 EUR - steer commercial focus accordingly.
- 158 customers are At-risk/Churned (of 395); hand the named list to sales for win-back.
- Top-20% of customers drive 56% of revenue - concentration risk to monitor.
- Next-quarter revenue forecast (model: seasonal_naive, CV-MASE 1.58): 585,564, 682,396, 987,495 EUR.
- OTIF is 85% (below the 90% service bar) - investigate peak-month delivery reliability.
